# REPORT

Visualizing Sustainability: A Cognos-Based Analysis of Global Trends (2000-2023)

Step1 : Logged in SmartInternz

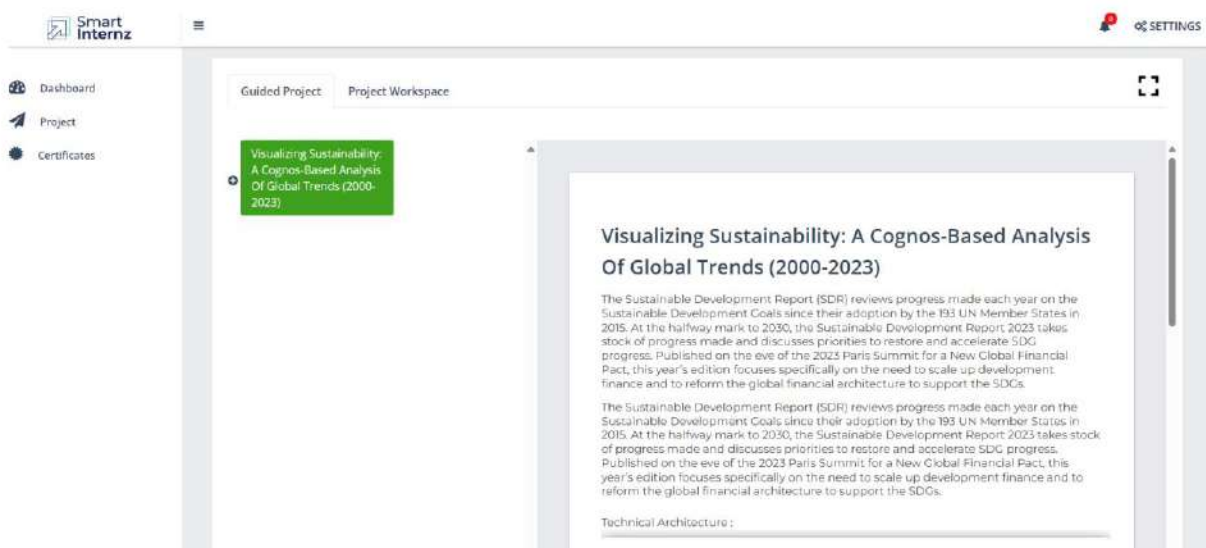

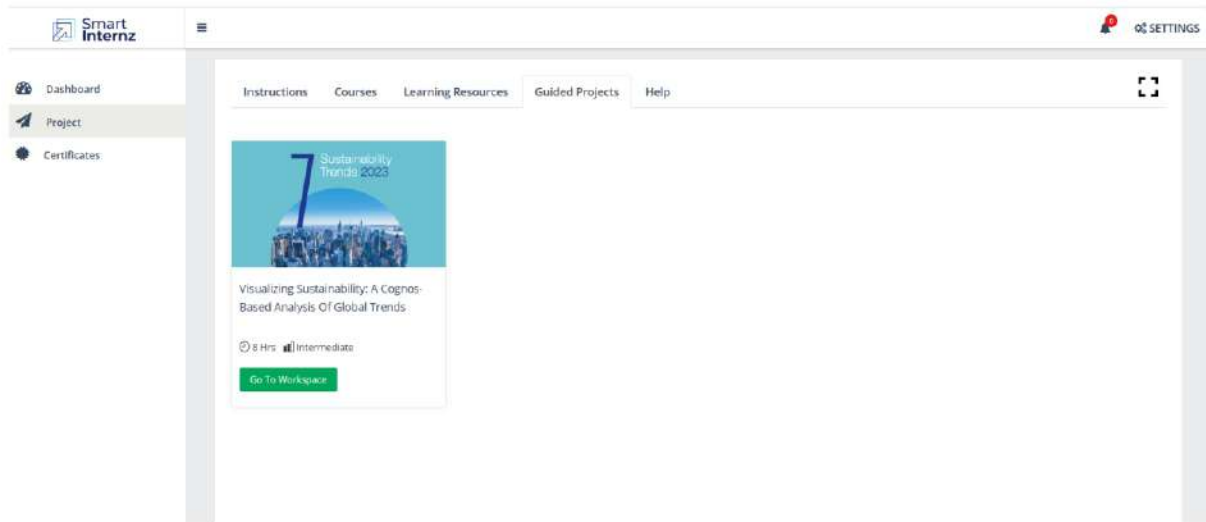

Step2: Selected " Access Resources"

Step 3: Selected "Guided projects"

REPORT

Visualizing Sustainability: A Cognos-Based Analysis of Global Trends (2000-2023)

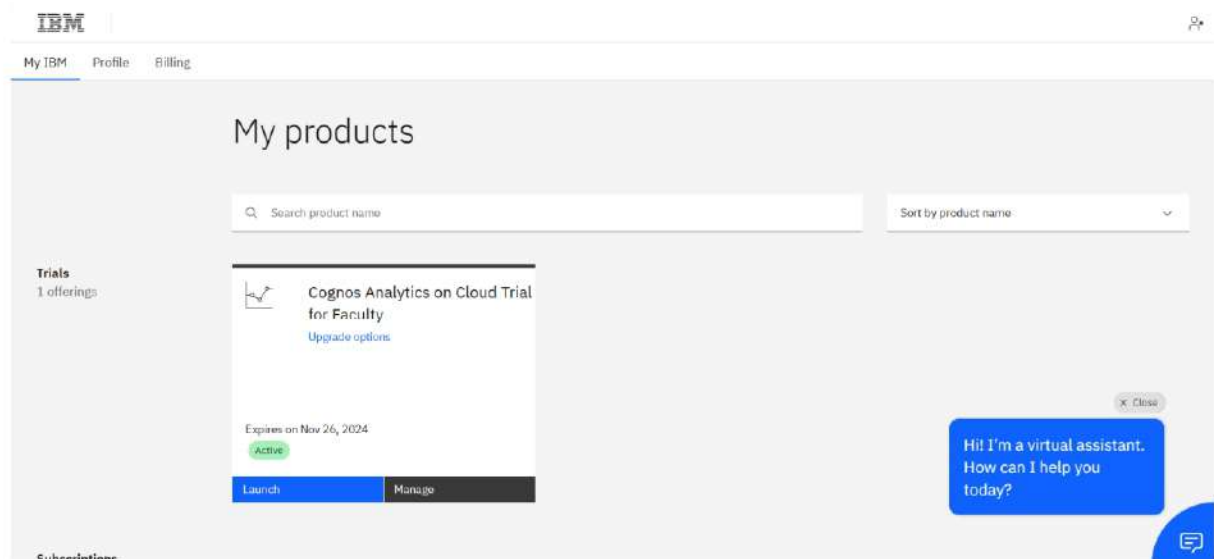

step4: Selected the course "Getting started with Enterprise Data Science".

REPORT

# Visualizing Sustainability: A Cognos-Based Analysis of Global Trends (2000-2023)

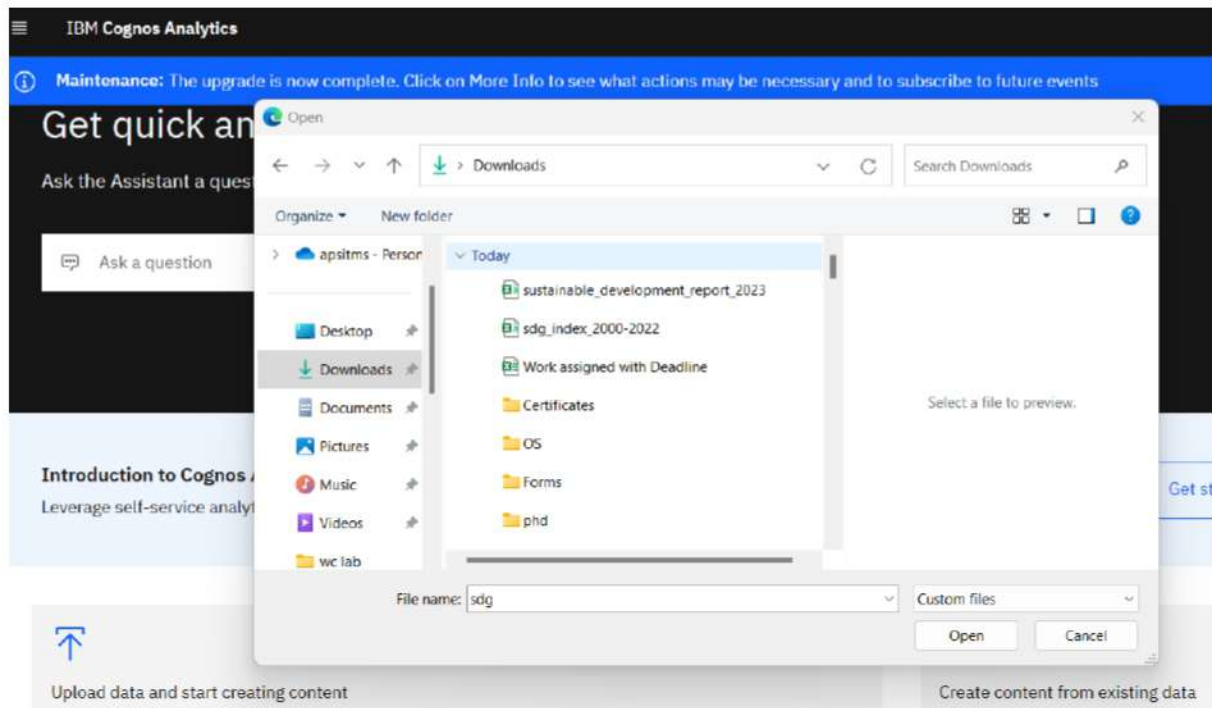

Step 5: Launched the course

Step 6: Data collection: Downloaded required data and uploaded in data module

REPORT

Visualizing Sustainability: A Cognos-Based Analysis of Global Trends (2000-2023)

REPORT

Visualizing Sustainability: A Cognos-Based Analysis of Global Trends (2000-2023)

Step 7: Data Visualization:- Explore the visualization

Step 8: Created dashboard

REPORT

Visualizing Sustainability: A Cognos-Based Analysis of Global Trends (2000-2023)

Step 9: Created Story

REPORT

Visualizing Sustainability: A Cognos-Based Analysis of Global Trends (2000-2023)

Analysis on sustainability Life on Land

- "Life on Land", offering a detailed view of sustainability and progress towards the related SDGs. This aids researchers, policymakers and environmental organizations in monitoring and enhancing land ecosystem health and biodiversity plays a crucial role in global efforts to preserve terrestrial environments and achieve sustainable development goals.

Analysis on sustainability Life Below Water

- "Life Below Water", a key component of the Sustainable Development Goals (SDGs). It supports the evaluation of marine ecosystem health and responsible ocean practices, aiding researchers and policymakers in ocean conservation efforts. This dataset is a vital resource for global initiatives aimed at protecting and enhancing the sustainability of our oceans.
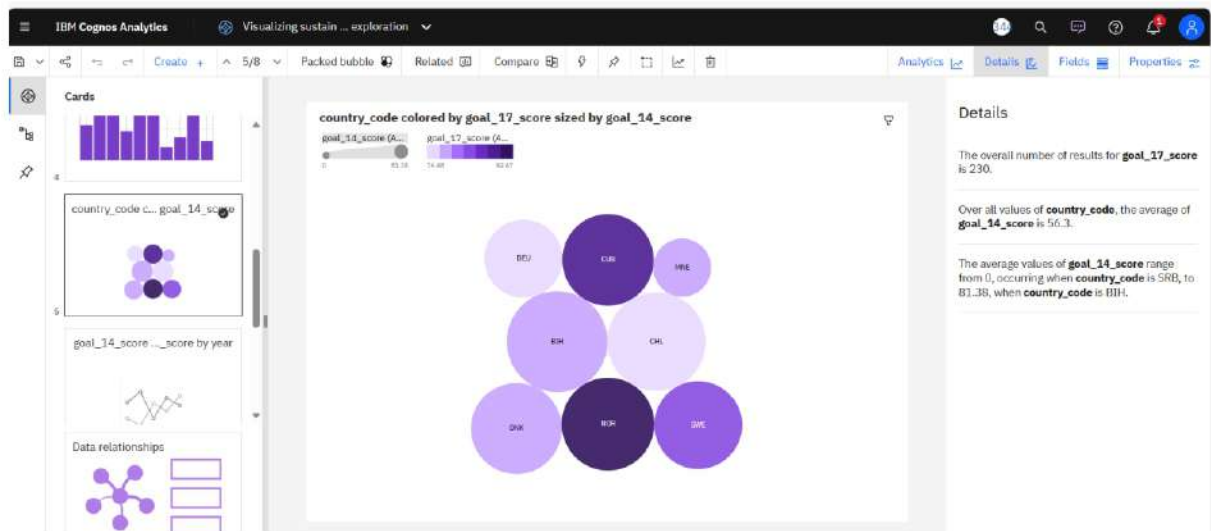

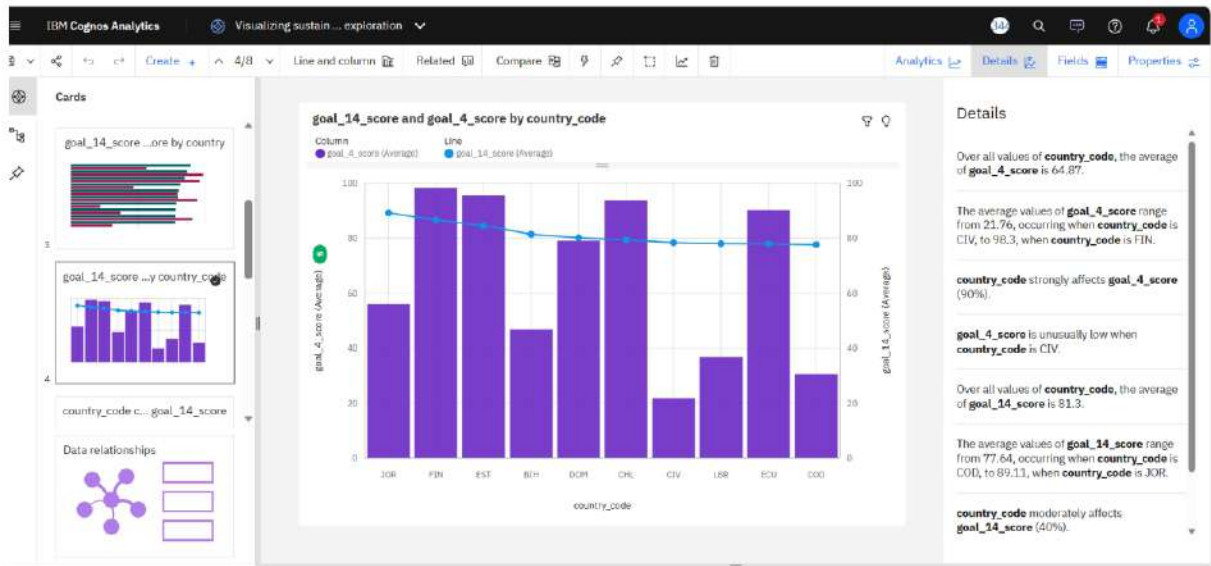

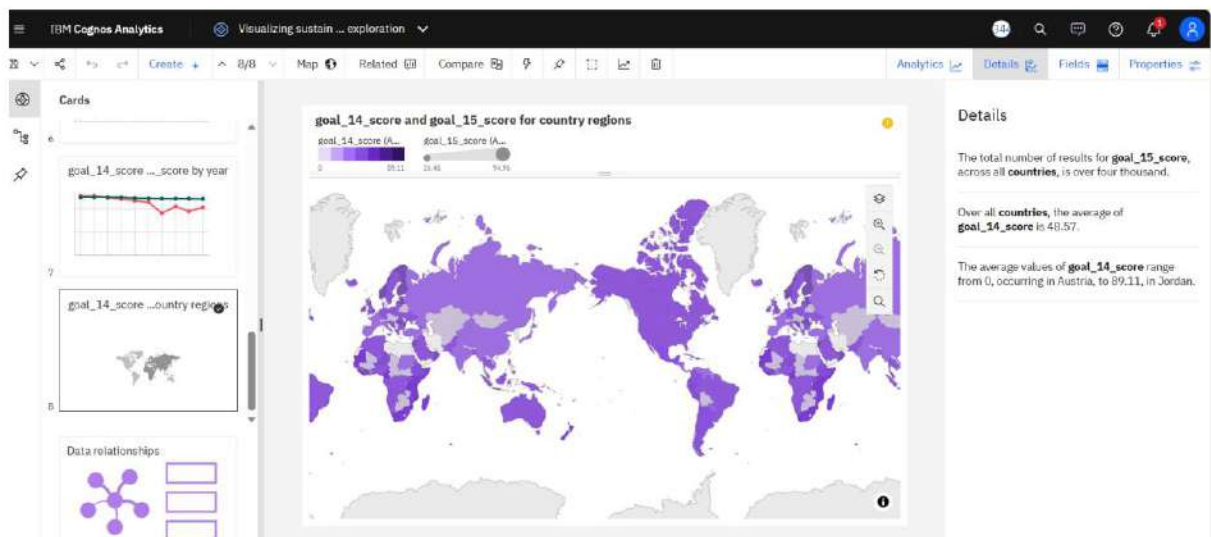

REPORT

Visualizing Sustainability: A Cognos-Based Analysis of Global Trends (2000-2023)

Analysis sustainability on Quality Education

goal_14_score and goal_4_score by country

Measures
● goal_14_score ● goal_4_score

- "Quality Education", a fundamental Sustainable Development Goal (SDG). This data set is a valuable resource for assessing educational access, quality, and equality across countries. Researchers, policymakers, and educational institutions can utilize this data to monitor progress, identify areas for improvement, and develop strategies for enhancing global education standards. By focusing on "Quality Education", this dataset plays a significant role in advancing the mission of ensuring inclusive, equitable, and quality education for all.

Analysis on sustainability Reduced Inequalities

country_code hierarchy colored by goal_14_score and sized by goal_4_score

- "Reduced Inequalities", a key component of the Sustainable Development Goals (SDGs). It offers a comprehensive view of disparities and socio-economic imbalances between countries, aiding researchers and policy makers in their efforts to create more equitable societies worldwide. This dataset plays a pivotal role in promoting social justice and ensuring inclusive development.

Step 10: Created Report

REPORT

Visualizing Sustainability: A Cognos-Based Analysis of Global Trends (2000-2023)

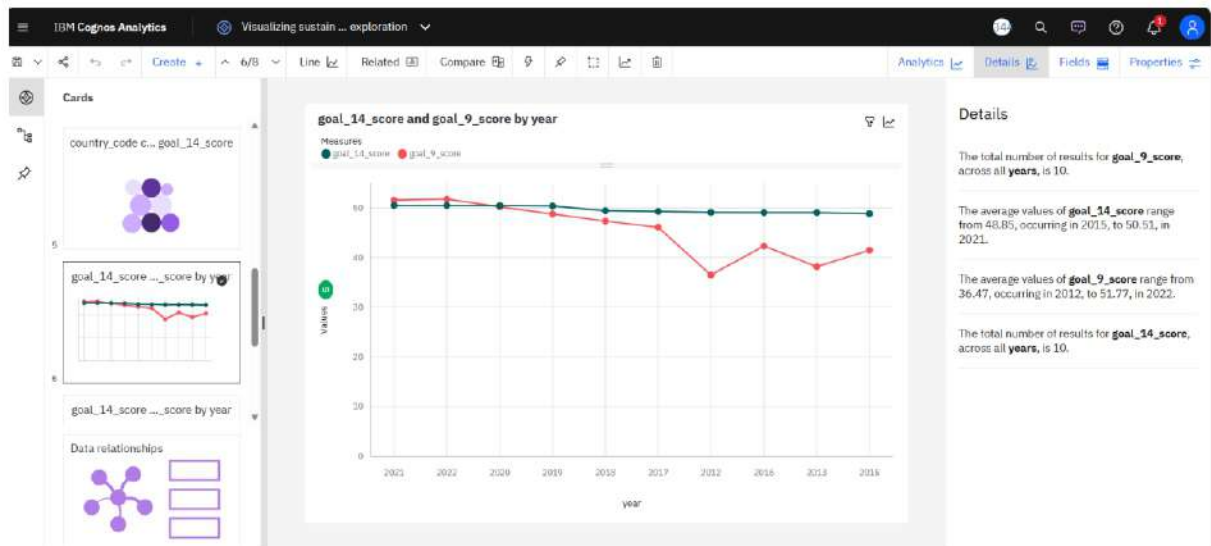

Step 11: Done web integration

REPORT

Visualizing Sustainability: A Cognos-Based Analysis of Global Trends (2000-2023)
